

Rescar
VSP Technologies

“ Looking back, this is one of the best decisions I have ever made. I was looking for a gasket supplier and found a true business partner. VSP has been a great asset for Rescar by providing training at the various locations as well as helping us reduce inventory levels and gasket material waste. They have also become a preferred supplier through the Rescar Quality Supplier Program.

If you or your company is in need of any Fluid Sealing Management Programs, help with your gasket inventory or any other similar services throughout the United States and beyond, I highly recommend the professionals at VSP Technologies. You will not find a more dedicated group of individuals or company any where. ”
